

## MILITARY, INDUSTRIAL and COMMERCIAL GRADE IT HARDWARE

MANUFACTURER'S REPRESENTATIVE  
AL, FL, GA, LA, MS, NC, SC, TN

**Milton J. Tookes, President, 865-803-6131, Milton@26-north.com**

**The Allpower Company:** Specializes in COTS, MOTS, Semi-Custom, and Full Custom AC and DC power conversion solutions for military, industrial, commercial, and nuclear applications. Products are in use in the most harsh environments worldwide.

<http://www.theallpower.com/>

**LP Technologies:** The Industry Leader in Affordable Spectrum Analyzing and Spectrum Monitoring Systems; latest in DSP and Phase Lock Technology.

<http://www.lptech.com/>

**Narda Safety Test Equipment / L3 Communications Company:** Leading provider of measuring equipment for the Safety, EMC and RF Testing sectors.

<https://www.narda-sts.com/en/products/>

**MilSource/ Techaya:** Compact, rugged Ethernet switches, USB, Media Converters and Routers:

<http://militaryethernet.com/>

**VersaTOL:** A subsidiary of Guided Systems Technologies. Produces a variety of high-performance unmanned helicopter solutions for military, civil and commercial applications.

<http://versatol.com/>

**ETL:** Designs and manufactures professional RF distribution equipment for Satellite Ground Stations and other Microwave users.

<http://www.etlsystems.com/>

**Moxa:** Embedded computers and embedded systems for different industrial applications a wide selection of processors, operating systems, storage capacities, form factors, and device interfaces

[www.moxa.com](http://www.moxa.com)

**Tactical Communications:** Tactical communication networks, also offers users of legacy systems a seamless bridge to today's latest VoIP technology.

<http://tacticalcommunications.com/>

**Rampart Defense Solutions:** U.S. sales of L, S, and C band, man portable, auto-tracking antennas.

[www.rampartds.com](http://www.rampartds.com)

**Geodetics Inc.:** Develops and markets real-time, high-precision positioning and navigation hardware and software solutions for military and civilian applications requiring the highest levels of precision.

## FEATURED PRODUCTS

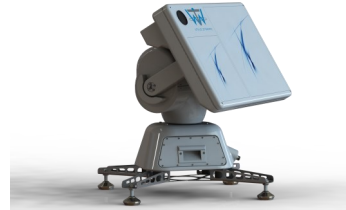

MilSource: MILTECH™ 918 Compact,  
Portable Military Managed Gigabit  
Ethernet Switch

Geodetic: Geo-iNAV® Advanced  
GPS/INS Navigation System

ETL: RF Power Amplifiers :  
RF frequency jamming systems, Medical Radar simulators,  
Communication testing, Electromagnetic Compatibility (EMC) testing

Rampart: Defense Solutions:  
The portable Triband dual axis Auto-tracking Antenna

Narda Safety Test Solutions— SIGNALSHARK—  
Real-Time Handheld Analyzer - Signal Analyzer  
for Detection, Analysis, Classification and Localization of RF Signals between 9 kHz and 8 GHz.  
Applicable for mobile and stationary use. It supports Narda directional and full automatic direction finding antennas. .

Nova Electric: Compact, Lightweight COTS Inverters  
Industry Smallest 120VA to 4500VA:
